**CANCER  
STOPS  
WITH ME!**

Dear

New Town Toyota

Walk for **WOMEN'S CANCER**

I'm walking 35km in the **New Town Toyota 2024 Walk for Women's Cancer.**

Raising \$500 will be tough, walking 35km will be tough, but I'm walking to show cancer that we're tougher together. I want to do my part so that cancer stops with me.

Could I ask you an important favour? Would you please consider supporting me by donating to my fundraising page? Scan the QR Code and search for my name at [walkforwomenscancer.org.au](https://walkforwomenscancer.org.au) to donate.

All proceeds go to the Harry Perkins Institute of Medical Research. Together, we are working towards better treatments and ultimately a cure for breast and ovarian cancer.

Thank you so much in advance for your generous contribution.

Kind regards,

*P.S. Your support really does mean the world to me! Together we're stopping our mothers, daughters, sisters, grandmothers and aunties dying from cancer.*
